

“150 Years Nicola Tesla”

**Congress from Saturday Nov. 18th till Sunday Nov. 19th 2006
in the Hotel „Holiday Inn“, Walldorf-Heidelberg**

**Organisator: Jupiter Publishers, Zuerich/CH,
in Cooperation with Tesla Society Switzerland**

09.30 a.m. **Entrance and reception of the congress documentation**

10.00 a.m. **Welcome address: Adolf und Inge Schneider, Jupiter Publishers, Zuerich/CH**

10.15 Uhr **Excerpts from the Film „All About Tesla“**

A documentary about Nicola Tesla

Michael Krause, director R&F film production, Berlin/GE

Tesla – Master of the Elements

A project of the **Tesla Society Switzerland**, compiled and designed by

A. Gabathuler, P. Stojanovic and F. Gisler, presented by

Adolf Schneider, Dipl.-Eng., Jupiter Publishers/TransAltec Inc., Zuerich/CH

11.00 a.m. **Vision for a new Space Energy Technique**

Oeconomical and oecological consequences of innovative Energy Technologies

Prof. (em.) Dr.Dr.Dr.h.c. Josef Gruber, Hagen/GE

Honorary President of G.A.S.E., Berlin/GE

12.00 a.m. Lunch Break

2.00 p.m. **Lindemanns Insights to Tesla’s Radiation Energy**

The essence of Cold Electricity and Energies of High Frequencies

Jeane Manning, Journalist and book author, Canada/B.C.

3.00 p.m. **The Secret of Resonance and Vortex Phenomena**

Tesla’s mechanical vibrators und high speed disc turbines

Walter Baumgartner, Engineer, Canada/B.C.

4.00 p.m. Coffee break

4.30 p.m. **From the Tesla Car to the Tesla-Roadster**

Environmental friendly electrical energy for motive power

Adolf Schneider, Jupiter Publishers, Zuerich/CH, **Klaus Jebens**, GFE/GE

6.00 p.m. **Dinner break**

8.00 p.m. **Radiation Free Direct Conversion of Nuclear Energy**

Energy delevering and transmutation via induced nuclear resonance

Dr.sc.nat. Hans Weber, Bionics, Freienstein/CH

Sunday, November 19th, 2006

10.00 p.m. **Basic Concepts of Space Energy**

From Nicola Tesla's ether energy to vacuum field energy
Dirk Schadach, Dipl.-Physicist, Hamburg/GE

11.00 p.m. **Autonomous Electromagnetic Drive**

Concept, design and test results of a pulsed magnetic motor
Hermann Thoene, Inventor, Ludwigshafen/GE
Prof. Dr.-Eng. Monika Trundt, University of Applied Sciences, Merseburg/GE

12.00 p.m. Lunch break

2.00 p.m. **Energy Transfer with Nicola Tesla's Concept**

Theoretical background und practical example of the laboratory
Prof. Dr.-Eng. Konstantin Meyl, University of Applied Sciences, Furtwangen/GE

3.00 p.m. **Chances for Innovations and Paradigmata Changes**

On the way to practical realisation and marketing of epoch-making inventions
Joe Weineck, film- & media production, Heiligenkreuzsteinach/GE

4.00 p.m. Coffee break

4.30 p.m. **Energy Production via „Energy by Motion“ (EBM)**

New kind of electromagnetic generators with surplus energy
Prof. L.I. Szabó, GAMMA Manager, Budapest/HG

5.30 p.m. **Closing address of the organizers**

Congress Packages:

incl. meals, coffee brakes and congress documentation

Price with standard rate for two days: € 290.-;

Price for subscribers of the „NET-Journal“: € 240.-

Price for retired/students: € 190.-;

Price for one day: 60% of the two day price

Booking in advance required !

Booking until Nov. 5 gives a 10% discount!

Booking Address:

Jupiter Publishers Adolf und Inge Schneider, P.O. Box 605, CH 8035 Zürich
